PROFILE

Experienced and detail-oriented Angular developer with 3 years of hands-on experience in designing, implementing, testing and maintaining web applications. Adept at collaborating with cross-functional teams to deliver high quality software solutions. Proven ability to meet project deadlines and exceed client expectations.

PROFESSIONAL EXPERIENCE

Senior Software Engineer at CAPGEMINI [June 2021-Present]

- Contributed to the development and ongoing maintenance of web applications for Capgemini member firms globally, utilizing Angular and Agile methodologies for iterative development and continuous improvement.

- Designed and implemented user-friendly interfaces using Angular, HTML, CSS, JavaScript and Typescript.

- Leveraged Angular features such as components, services, and modules to create dynamic and maintainable applications.

- Utilized modern front-end libraries and frameworks, including Bootstrap and Angular Material, to enhance the visual appeal and functionality of web applications.

- Integrated Third-party APIs to enhance application functionality.

- Transformed high-level designs into detailed technical specifications, providing clear guidelines for development.

- Developed, tested, and deployed applications using Continuous Integration (CI) methodologies, ensuring code quality and reliability.

- Participated in Agile/Scrum development processes, ensuring timely delivery of features.

PROJECT SUMMARY

Customer Dashboard Application
Designed and implemented a comprehensive Angular application aimed at managing, optimizing, and handling customer data with a focus on user-friendly interface and robust backend integration.
- Gathered and documented requirements in collaboration with the project lead.
- Developed application functionality through coding.
- Tested features to ensure functionality and performance.
- Integrated application components for a cohesive system.
Technologies: - **Angular 13+, HTML, CSS, JavaScript, TypeScript, RXJS.**

Sales Pyramid

The Market Sales Pyramid application is designed to track and manage marketing proposals throughout their lifecycle. This workflow-driven application involves multiple stakeholders who perform designated actions, including state changes.

- Gathered and documented requirements in collaboration with the project lead.
- Developed application functionality through coding.
- Tested features to ensure functionality and performance.
- Integrated application components for a cohesive system.

Technologies: - **Angular 13+, HTML, CSS, JavaScript, TypeScript, RXJS.**

AEM App development

Led the design and implementation of custom components for an Adobe Experience Manager (AEM) application, enhancing functionality and user experience.

- Designed custom AEM components using HTML and HTL
- Implemented client-side functionality with JavaScript, enabling interactive features and dynamic content updates within the AEM application.

Technologies: - **AEM, HTML, CSS, JavaScript,**

SKILLS

Technical
> **Angular 13+, JavaScript, Typescript, HTML, CSS**

Database
> MySQL, Oracle

IDE
> Visual Studio Code

Others
> Bootstrap, GitHub, Postman, Agile

EDUCATION

Bachelor of Technology in Computer Science
2015-2019 with CGPA-6.3
Rajagiri School of Engineering and Technology, Kochi
